

EPK - **Happiness Junkies**

Artist: Happiness Junkies

Album: Happiness Junkies (available streaming, MP3 & manufactured CD)

Release: June 2018

Style: emo indie slowbeat rock; electric guitar, piano, female vox & a rhythm box
– *enjoy a slow pace in a fast world...*

What if... with just female vocals, piano and electric guitar you pretty much sound like a band
What if... piano and electric guitar parts somehow entwine
What if... the simple sound of a drum machine seems just right
What if... you turn the tempo down to a slowbeat and...
What if... two band members are more than enough
What if... you're addicted to happiness, but at the same time touched by melancholy

Happy to meet you...

we are **Happiness Junkies**

All songs written, recorded, mixed & produced by HJ – Independent label: Commuse
Mastered by Don Tyler at IO Mastering, L.A.
