

EPK - **Happiness Junkies**

Artist: Happiness Junkies

Album: Happiness Junkies (available streaming, MP3 & manufactured CD)

Release: June 2018

Style: emo indie slowbeat rock; electric guitar, piano, female vox & a rhythm box

– *enjoy a slow pace in a fast world...*

What if... with just female vocals, piano and electric guitar you pretty much sound like a band

What if... piano and electric guitar parts somehow entwine

What if... the simple sound of a drum machine seems just right

What if... you turn the tempo down to a slowbeat and...

What if... two band members are more than enough

What if... you're addicted to happiness, but at the same time touched by melancholy

Happy to meet you...

we are **Happiness Junkies**

EI – vocals, piano, percussion & Onno – guitar, drum programming, backvoc

All songs written, recorded, mixed & produced by HJ – Independent label: Commuse

Mastered by Don Tyler at IO Mastering, L.A.

a very relaxing, calming album... beautiful warm and at the same time powerful voice... relaxed guitar playing; so much variation in sound, from crystal clear to powerful and magical!' (Andrea, Bruxelles, Belgium)

'music that makes you feel and think... intelligent lyrics that you can ease your mind into... Happiness Junkies are a welcome addiction' (review Indie-Spoonful.com)

'a great slowbeat rock disk... recommended tracks: 3, 5, 6, 7, 10' (Mark Langan, Deep Mission show, KALX radio, CA, US)
